

Annex 1

Comparison Table of Amended Articles of Domain Name Registration Agreement

Proposed version of the Articles	Current version of the Articles	Comments
<p>2. TWNIC shall have the right, based on international Internet community practice and in consideration of public interests such as protection of consumers, protection of intellectual property rights, enforcement of laws, to establish a WHOIS service to provide to the public the information, including the information related to the domain name (e.g., domain name, creation date, expiry date, name server record, etc.) as well as the contact information (e.g., name of the entity, the Registrant's or contact person's name, address, country, telephone number, fax number, e-mail address, etc.), either in Chinese or in English, as provided by the Registrant. To protect personal data and privacy, TWNIC may provide disclosure/non-disclosure function of contact information such that the personal data are subject to public query upon the consent of the Registrant.</p>	<p>2. TWNIC shall have the right, based on international Internet community practice and in consideration of public interests such as protection of consumers, protection of intellectual property rights, enforcement of laws, to establish a WHOIS online query interface to provide to the public the information (domain name, name, telephone number, fax number, e-mail address, of Registrant, date of application, expiry date, DNS setup information), either in Chinese or in English, as provided by the Registrant. To protect the privacy of the Registrant, TWNIC may appoint several items of information provided by Registrant, depending on whether or not the Registrant is an individual, such that the items are subject to public query upon the consent of the Registrant.</p>	<p>In accordance with the adjustment of WHOIS query results.</p>

<p>9. Control the access of your Personal Information: Among the items to be displayed in the WHOIS service, you may use the disclosure/non-disclosure function provided by TWNIC for setting public accessibility. Such settings and changes won't impact your rights in using your Domain Names.</p>	<p>9. Control the access of your Personal Information: Among the items to be displayed in the WHOIS search interface, some are reserved for your control, if you are an individual. For these items you may change settings of particular ones so that they are accessible/not accessible by the public from the WHOIS search interface. Such settings and changes won't impact your rights in using your Domain Names.</p>	<p>In accordance with the adjustment of WHOIS query results.</p>
